**DOES YOUR CUBE LOOK
LIKE THIS???**

(2x2x2 Pictured)

**RESTORE IT TO THIS IN
MINUTES!!!**

(3x3x3 Pictured)

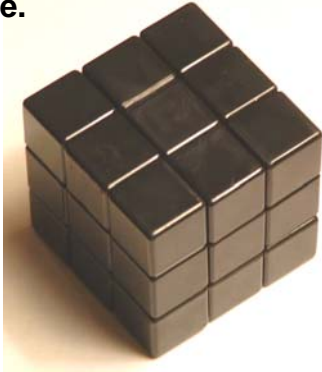

***THIS KIT'S SOLID COLOR VINYL DOES NOT GET DAMAGED LIKE
NEWER PAPER TYPE CLEAR COATED STICKERS***

- Kits available in standard original colors made from Durable Self-Adhesive Solid Color 3mil Vinyl.
- Kit Contains 6 sheets (each with 3x3 grid squares), Application Tape, and Detailed Instructions.
- Solid Color Vinyl eliminates problems associated with the newer paper type stickers with clear coating.
- There is no clear over coating to wear out, so your colors last much longer.
- Each kit will recondition one 2x2x2 or 3x3x3 standard size cube.
- Custom colors may be available upon prior request.

CUBE RESTORATION KIT - DETAILED INSTRUCTIONS

MayPrinting.com ©2006

1.) Remove all old stickers and residue.

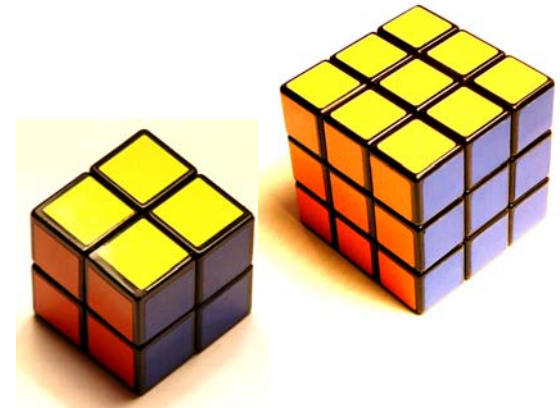

The use of a product like Goo-Gone, available at Wal-Mart, Home Depot, and Lowes, may help with removing all glue/residue.

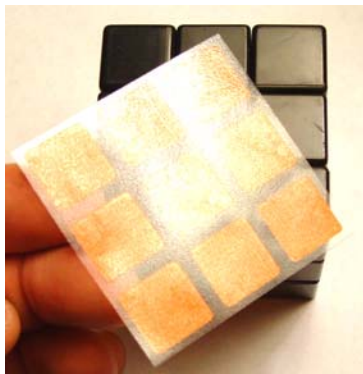

3.) Align the vinyl on the cube and rub it on.

5.) Enjoy your restored Cube for many hours of use!!!

2.) Locate the sheet with the clear application tape applied, rub the clear application tape to ensure vinyl will stick to application tape. Remove the application tape from the backing tape, ensuring the vinyl sticks to the application tape.

4.) Remove Application tape from cube/vinyl. Apply application tape to next color and repeat steps 2-4 for each color.

Remove extra rows to cover a 2x2x2 cube
