

# PINBALL CABINET PROTECTOR KIT

MayPrinting.com ©2006

ONE KIT (LEFT & RIGHT SIDES)

## FLIPPER PROTECTOR

*-Simply Peel and Stick.*

*-Trim to Fit with Scissors, if necessary.*

- Kits** - Available in *Black, White, or Clear* Durable Self-Adhesive 3mil Vinyl, contains 2 Cabinet Protectors (Left & Right).
- Flipper Protectors** - Can be applied without opening machine. Simply align over flipper button and rub on, fits standard newer (1990 and up) type cabinets. Not required for older (Pre-1990) type cabinets, pinball manufactures reduced the rail size in the early 90's, thus leaving the cabinet exposed and prone to damage and wear around the flipper buttons.
- Leg Protectors** - Available upon request.
